

East Millstone
Dec. 12th '69.

Rev. J.M. Ferris D.D.

Dear Dr: I have received your note enclosing a check for one hundred dollars.

The Prince and his party have arrived at New Brunswick on the last saturday, and are now staying at Hotel, but they will move somewhere else as soon as we find good boarding places. I did not see them until this morning where we talked over about them boarding house and studies &c. In regard of their studies I think, it is better for them, that Soogwoola or I, myself will teach them on some primary branches until be able to go to school and receive instruction directly from the teacher; for at present condition they all know hardly, how to pronounce the twenty four characters.

We will have the vacation from next week and I expect to go to Philadelphia to see this beautiful and great city. Will you be kind enough to send me the introductory note to Mr. Henry Wood in that City, for I would like very much to see, and converse with this old gentleman.

Your Respectfully

Taro Kusakabe
